

## **OUT OF STATE RETIREE HEALTHPLEX MEMBERS GROUP #'S: GG-002RN/WN**

---

In conjunction with the Healthplex Account Services Team, President Andrew Ansbro and the Uniformed Firefighters Association Executive Board are pleased to announce enhancements to your dental plan beginning on April 1, 2022!

Each retiree, dependent spouse and dependent child over the age of sixteen will be eligible for an implant, based on medical necessity. Implant coverage will consist of one bone graft, one implant placement, one implant abutment and one implant crown per year. The bone graft can be performed either at the time of the tooth extraction or at the time of the implant placement. In addition to this exciting enhancement, the dental plan's annual maximum is being raised from \$2,500 up to \$3,500, to help minimize the out-of-pocket costs if you are to receive treatment for these implant services.

The PPO network available to retirees residing outside of New York consists of a range of fees based on your geographic location. Therefore, out of pocket costs for these services will vary across the country. A pre-authorization is recommended so that you know what your out-of-pocket costs will be prior to beginning any treatment.

Check the Healthplex website to assist you in locating an in-network participating provider. It is always recommended to have services performed by an in-network participating provider. However, if you elect to receive treatment from a non-participating provider, you will be reimbursed according to the following implant fee schedule.

If you have any questions, please contact the Healthplex customer service department at 1-800-468-0600 from Monday through Friday, 8AM – 6PM. Additionally, you may utilize the Healthplex rapid response email: [memberinfoUFA@healthplex.com](mailto:memberinfoUFA@healthplex.com).
